# Gladiator Contest

These 4 gladiators have been taking part in contests ordered by Emperor Claudius to celebrate the successful invasion of Britain.

Young Roman mathematician, Vital Statistix has drawn a bar chart to show how many fights each gladiator won.

Can you work out...

**Which gladiator won most fights?**

**How many fights did these gladiators win altogether?**

**How many fights did Velitus win?**

**If Samnite fought Myrmillo, who do you think would win?**

**What makes you think that?**
