

ART

Art and Design

We aim to develop each child's creativity and imagination through a range of visual, tactile and sensory experiences. These opportunities help them to understand and respond to the world by expressing their ideas and feelings.

In Key Stage 1 the children begin to develop an understanding of colour, form, texture and pattern through a variety of media including paint, clay, textiles, and sculpture. During Key Stage 2 children build on their knowledge, skills and understanding of materials and processes through a wide range of experiences including visits to art galleries, museums and workshops. By exploring the ideas and meaning of the work of other artists, craftspeople and designers they learn about their different roles and about the functions of art, craft and design in their own lives and in different times and cultures.
